VOLUME 36

FRIDAY FEBRUARY 4, 1944

NUMBER 36

## Hon. Solon E. Low Speaks on Education

About 100 people were present Friday night at the Opera House to listen to the address of the Hon. Solon E. Low, Minister of Education on "Education in Alberta."

Outlining the present High School curriculum and its objects, the Minister pointed out what in his opinions were some of its weak points, and he went on to stress what he thought were essential training subjects for our youth. He spoke especially of shop and mechanical work, and said that our schools, and our school staffs throughout the Province should be working to further the education of our adult population, and that two or three or four nights each week, the schools should be filled with adults, completing their education, and learning new subjects, only then said the Minister would our educational program be functioning as it should. Then too, our school program should be shaped now to absorb the men and women when they return from active service, and give them specialized training in subjects of their choice, so that they could be assimilated into the industry and work of the world without any upsetting of present programs.

His talk was thoroughly enjoyed by everyone, and afterwards an open forum was held and one or two questions discussed. One was the four year High School course, adding to the Ten, Eleven and Twelve, a Grade Thirteen. It seemed to be the sense of the meeting that, provided the course was made more practical, including agricultural education, and mechanics in the shop course, that it would be a good thing. The idea was expressed that every parent was anxious that their children receive the maximum in education, but finance was often a knotty problem. The idea of credits for experience in various trades, under experienced workmen was discussed, and it was felt that if the older boys, and girls, could be given credits toward their diploma for this kind of work along with their schooling, it might aid them in completing their High School. These suggestions were noted by the Minister, and a resolution was passed on the first one of the two. It was after eleven before the meeting broke up.

Bert Nilsson, now of Lethbridge was a Raymond visitor yesterday.

Gordon Brewerton of Cardston was a Raymond visitor Tuesday.

The Municipal Council were in session last week, with valuations of property throughout the district being made to reach an equitable average.

### VALID 'D' COUPONS GOOD FOR NEW RATION INCREASE

Ottawa, Jan. 31.—The prices board announced today that the increase in preserves rations effective Feb. 3 applies to all valid 'D' coupons in the hands of consumers on that date. Consumers and retailers had asked, the board said, whether the new coupon value applies only to those coupons becoming valid on and after Feb. 3 or to all coupons which a consumer may have accumulated.

### NEWS NOTES

Harold Garner was helping at the Cheese Factory over the week-end taking care of the milk and doing the heavy work.

One little skiff of snow last week and summer weather again since. Maybe it isn't seasonable but it is certainly enjoyable compared with what we expect in January.

The excavating of the Hospital basement was done last week and the site is now ready for the concrete forms when final plans are ready to work on.

Mr. and Mrs. Wm. A. Anderson, Mr. and Mrs. A. J. Garner and Mrs. Harold Garner were in High River Friday last attending the funeral services of Mrs. Alex Fleming, aunt of the Garners.

### Social Credit Group Re-Organized

Last Friday at 5 p.m. the Warner Constituency Social Credit group met in its annual meeting and for re-organization. Pres. A. W. Jones conducted the meeting and gave a report, and Secretary E. M. Kiddle rendered a financial statement of the past year.

In the re-election of officers the following were chosen:

President—J. L. Anderson, Raymond.

1st Vice—J. W. Carr, Warner.

2nd Vice—H. Wright, Coutts.

Secy.—E. M. Kiddle, Raymond.

Only one name was presented for nomination in the next Provincial election, and that the name of Hon. Solon E. Low. Mr. Low came into the meeting just previous to this, and when his name was announced he accepted the nomination amidst a hearty burst of applause from the delegates.

### Senior Basketball Saturday Night

The first senior basketball game this season will be Saturday night in the Opera House, when the Union Jacks meet the Calgary Currie army. So far this season the Jacks are undefeated having played Lethbridge, Macleod and Claresholm. They hope to maintain their winning streak Saturday night and fans are assured of a real game.

Four of the old guard, viz., Turner, Nalder, Nilsson and Dunlop are in there again, and they are reinforced by Billy Meeks, Ralph Walker, Gill Evans and Bill Nalder so that it will take a good team with plenty of speed, combination and accuracy in shooting to win from the Jacks.

Another thing we might mention. The galleries on the sides of the building have been renewed and short benches with back rests on them replace the plain planks which have been used before. This should be a real asset to most of us who like to have a support to our spine when watching games.

All in all the games Saturday night should be a thriller. Prices are 40c. for Adults, 25c. for Students and 10c. for Kids. So long, see you at the game.

## Erminie Very Well Presented

Lovers of music and drama enjoyed a real treat Tuesday & Wednesday evening this week when "Erminie" an opera in two acts, was presented by the 1st Ward M.I.A., under the direction of Gerald J. Gibb, music director of the Mutuals, assisted by a host of actors, singers and stage assistants. From first to last the interest of the audience was maintained, and on Wednesday night particularly, the hall was crowded to the very doors, seats being carried in by the dozens, until aisles and every other space was filled.

It would be unfair to single out any one character above the others as putting the production over. Every one, whether their part was large or small gave their best to it, and all added to the enjoyment of those who gathered to be entertained.

There was a nice thread of comedy throughout the story, part. Columns could be written in praise of the personnel of the cast. We will content ourselves by saying well done to all, and suggesting that more of this kind of training would be a tremendous benefit to the music in our own, and would really be a great development to all who could be induced to take comedy throughout the story, part.

## Co-op Management Changes

Alma E. Hancock has been in- sulted as Manager of the Raymond Co-op this week, succeeded by Gurnett E. Summers. The Co-op has gone to Crooked Creek in the Peace River country to op- erate a Cheese Factory there.

The business of the Co-op, has shown a healthy increase since its commencement a little over a year ago, and some departments have almost surpassed present accommodations. We refer especially to the Locker Storage department, which at present finds nearly every average box rented and inquiries still coming in for more. There is ample room in the locker for storage space for another 150 boxes, and if additional renter, will make their wants known to the management, more room will be provided. The value of this box for the preservation of meats, poultry, game vegetables and fruits can hardly be computed, especially when their things are properly processed. Many box owners will testify of this.

The Co-op is anxious too, to make itself a feed headquarters for the district. There is no question but what quantity buying would make quite a difference in feed costs, and if volume

The egg business is good, but it should be better. Every producer in the district should make the Co-op grading room their sales centre. The Co-op is here to serve you. Only with your wholehearted support can it fulfil its aims. To make Raymond and district bigger and better for all of us was what it was organized for and only when all of us really co-operate can it benefit us as it should.

## Nomination on Monday

Just to remind you folks that Monday is Nomination Day. Nomination blanks may be obtained any time now from the Town Office, but they must be filled in, signed by the candidate and witnesses and returned to the Returning Officer before noon of that day.

This year there are to be nominated two Councilmen. Councilors Pack and Nilsson being the men whose terms have expired. Three School Board members, Dr. Madill, T. W. Meldrum, and H. Myron Holmes, Chairman of the Board. Something new for Raymond is that the nomination of a Hospital Board member. The Council appointed S. I. May to this temporary Board last summer, but a nomination must be made on Monday.

A wire has been received by the J.W. Evans family that their son Paul, reported missing several weeks ago is a prisoner of war and is alright. This news is a big relief to the anxious family.

Word has just been received from Edmonton that in the Boxing Tournament held at the University of Alta. this week, Steele Brewerton won his bout in the 140 lb. class, and was awarded the Wynnichuk Trophy which was donated by the Boxing Club Coach in recognition of the best

## Annual Ratepayers Meeting Held

### NEWS NOTES

Dr. and Mrs. Madill returned to Raymond the first part of the week after spending a weeks' holiday in Edmonton.

David, young son of Mr. and Mrs. E. E. Jensen has been ill for the past week with flu and pneumonia and was dangerously ill for part of the night last Thursday. He is improving now.

Albert Jones of Wyentham has been appointed Secretary-Treasurer of the Warner Municipality succeeding C. J. Gough, nor, who passed away the end of the year.

Floyd "Billy" Hawkins, who now lives in the United States spent a week here with relatives, and visiting his father who has been ill for quite a time. Billy returned the first part of this week.

### QUARTERLY CONFERENCE

Next Sunday is Conference in Magrath. President John H. Taylor of the First Council of Seventy will be in attendance representing the General authorities. A Priesthood meeting will be held at 9:30 a.m. with sessions at 10:30, 2 and 7 p.m. for the general public. Stake missionaries are especially urged to be present.

### Dick Kinsey Speaks At Rotary

Dick Kinsey was guest speaker at Rotary on Monday and for an hour kept the fellows interested in answering questions of his training, activities on service, conditions, treatment and so on. It was a little after 2 p.m. when the 1:30 meeting ended, then only because members had to be back on their various jobs.

Dick was in England with the R.A.F. for three years, arriving in England in January 1940. He trained at several schools and was posted as several bombing depots during his stay there. He made over 30 flights over enemy territory with bomber crews and had his full share of experiences as a flyer. The toll of men and machines in the earlier years of the struggle was tremendous. Today the picture is changed and superiority and supremacy in the air rests with the Allies. Better machines, better armament, better trained men are all adding to the power of the Allies and reducing losses.

Speaking of the effects of the 'battle of Britain' Dick said it was truly a civilian war and that the suffering inflicted on women and children in some of the raids was simply indescribable and far better forgotten. He had enjoyed his experiences and was glad to have been of some service to his country and was very glad to be back home again. He showed pictures of several types of planes he had worked with and said that the advancement in plane building since the start of the war was almost unbelievable. The speaker was given a big hand when he finished.

The Vets held a luncheon Monday night with 24 present when Dick was again speaker and also Thursday night, in the Sugar Bowl the Air Cadets held a Camp and here again Dick talked to the boys of life and experience in the Air Force.

The annual meeting of the Ratepayers of the Town of Raymond was held last Friday evening in the Town Hall with about 50 present. John F. Salmon was elected Chairman of the meeting and J. O. Hicken Secretary.

The Financial statement of the Town was read by Mayor P. W. Cope, and questions were asked and explained by the Secretary-Treasurer. The report showed the Town in excellent financial condition with more than \$38,000 in the Bank, \$4,000 owing from the School Board and \$1,550 invested in Victory Bonds. A lengthy discussion grew out of the statement, with respect to some of the pressing needs of the Town and how best to get them.

The School statement was read by Chairman H. Myron Holmes, and the School Board was shown to be in good condition. Some questions were asked and then the Chairman told of the repairs necessary to the Public School building before school could be started this year and of the questions facing the ratepayers with respect to new school accommodations, stating that along with the poor condition of the Public School, which the architect thought would have to be abandoned before very many years, the present schools were badly overcrowded & a new and larger school aggregating primary and intermediate schools would be essential, or some other scheme worked out.

T. O. King of the Library Board spoke of the need of more library space and suggested a new building alongside the Town Hall so that it could be heated and cared for by the same janitor, in order to give the needed accommodation for Library books and patrons.

Melvin T. King spoke of the absolute necessity of drainage and sewage before the alkali spoiled all the buildings in the town, and Frank Taylor, Chairman of the Town Planning Commission gave it as his opinion that the thing that should be done first is to inaugurate a Town Manager form a Government to centralize responsibility for the spending of the Town's money, and then by a long range scheme of planning, go after some of these things, but see that they came in their proper order.

A hearty vote of thanks was tendered the Mayor and Council and the School Board for their fine labors during the past year and the meeting adjourned.

### NEWS NOTES

Snow commenced falling steadily at 10 a.m. Friday the sharp north wind continuing which had blown all night.

Fris is of Milt Strong will be pleased to know that he is able to return home after an operation and is improving steadily.

Agricultural Supt. F. R. Taylor and Ernest Bennion, Fieldman, of Canadian Sugar Factories, Limited, are in Denver, Col. this week attending technological convention on beet culture.

The Municipal Caterpillar and tumbler started work Friday afternoon excavating for the new Hospital. It is not the intention to put the building much underground and the maximum depth of excavation will be about two feet.

### DIAMONDS IN THE ROUGH

The presentation of 'Erminie' this week, reminds us that talent in various lines is around us in great abundance. If some one or some group only takes the time to uncover it and bring it to light. It is a shame that our social structure is not such that more opportunity could be given to the development of this side of our nature. Like canned music in the radio and canned acting in the cinema and canned everything for our convenience these days, we get to the stage where even reading becomes too much of an effort and we try and find stations that give our news our biographies and history out of the air so that we will not have to exert ourselves to obtain it. Without belittling all the conveniences of modern life, all will agree that it can be taken too far. Our choirs are not what they might be, and vocal soloists are getting fewer all the time, largely due to a lack of encouragement and appreciation.

ion. True, everyone is not a Kate Smith, nor a Caruso. There are however, many splendid voices, seldom heard in public. There are many natural born actors never discovered, and so it could go on, talents that are hid in the earth as it were and allowed to decay.

Our educational program, and our social life should be such that these things would be discovered and put to use. There was a time when we had debating clubs, little theatre groups, musical organizations, bands, concert orchestras and what not to draw people out of themselves and encourage them to improve these "hidden talents" in themselves. With the progress of the age could some re-awakening of this sort of social life take place. Everyone likes to perform in their 'niche' if they feel that their efforts are appreciated.

We are too prone to encourage a few and wear them out as it were. While we ignore the capable who require encouragement, and never think of the backward artists who need a little persuasion to get them to work, but who have a world of talent when they are finally brought out of retirement and persuaded to contribute to the social life of which they themselves are a part. There is something here that our church organizations our clubs and our home and school groups might think over and study in their efforts toward community service.

## Announcement

We are pleased to announce the appointment of A. E. Hancock as Manager of the Raymond Co-op, succeeding G. F. Summers who has gone to the Peace River country.

It will be our purpose to make the Co-op what it should be, a centre for the gathering and handling of milk and eggs, the sale of a full line of poultry, hog and cattle feeds, salt, etc., and cold storage Lockers.

This latter department is functioning very well and we may soon enlarge this by adding 150 more Lockers.

We appreciate the support of our many patrons, and hope that our present set up will add more to our list, and that we shall be better able to serve those who are already customers. We will appreciate suggestions for the improvement of our service and promise you our very best.

## Canadian Certified Seed Potatoes Should be ordered AT ONCE

PLACE YOUR ORDER NOW, while supplies are still available. Seed potatoes are being withheld from export to meet the requirements of Canadian growers; but the demands from outside Canada are very strong and supplies not needed for planting in Canada should be released for export in March before the season in the U.S.A. is too far advanced for planting.

ORDER "CERTIFIED" for Table Stock Production. Larger crops are needed in 1944. Obtain a heavier yield from each acre by planting Canadian Certified Seed Potatoes.

ORDER "FOUNDATION" and "FOUNDATION A" for Certified Seed Production. All fields entered for certification in 1944 must be planted with either "Foundation" or "Foundation A" seed potatoes.

DISTRICT INSPECTOR FOR

"Foundation A", or "Foundation" seed  
potatoes for sale, apply to the local  
District Inspector, Seed Potato Certifi-  
cation, or to the Plant Protection Divi-  
sion, Department of Agriculture, Ottawa.

### FARM FOR VICTORY

#### SELECTING EWE LAMBS FOR WOOL PRODUCTION (By W. R. Hanson)

The practise of selecting proper ewe lambs to build up the herd has received very little consideration throughout this country, and yet it is a most important factor in building a high wool producing flock.

In the United States records were kept of certain flocks, and the lambs from certain ewes that yielded a high wool clip were selected. After three generations the average clip of the flock was increased from nine to twelve and a half pounds. In experimental work at universities and experimental stations, it has been conclusively established that the ability to yield a high wool clip is inherited directly. In other words, the majority of the lambs produced by ewes that yield a high clip will themselves give a heavy fleece.

In the last article on sheep production a method of marking lambs for identification purposes was mentioned. If such a system is used so that the lamb of each ewe can be identified, selection of the best wool producers is simple. This method entails weighing each fleece individually and keeping records. This will take little time but will be many times repaid in succeeding years. An examination of the records kept at shearing time will show which ewes sheared a heavy fleece. Lambs of these should be selected to keep in the breeding flock. Coupled with this, one must use a ram which has a good heavy fleece. One must remember that as far as lamb crop is concerned, the ram is half the herd.

#### SHEEP DIPPING

There are two common external parasites on sheep, namely, ticks and lice. Ticks are the most common and do the most damage. Both pests cause a serious loss of wool as well as sapping the vitality from the ewe flock and the young lambs. Flocks which are badly infested make poor grade. Both of these pests, as well as the contagious disease Sheep Scab, can be controlled by dipping.

Although dipping is common with most good sheepmen, some flocks go year after year without coming near a vat. Unquestionably the cost of dipping would be many times repaid by additional wool and mutton sold. It has been estimated by one good source that the increased weight of lamb and wool from flocks that are kept free of parasites by dipping, amounts to 50c. to \$1.50 per ewe while the cost of dipping will amount to about 5c. per head.

Sheep should be dipped at least once a year, and two dippings are advisable. The first dipping should be in the spring and the second in the fall, the spring dipping being most important. Dipping should be performed as soon after shearing as possible, but cuts from shearing should be healed. When the fleece is light less dip will be soaked up by the sheep.

The usual type of dip is a fluid containing carbolic, arsenic and tobacco. Most standard dips produce effective results. The powder form can be obtained, but requires a little more time and more caution in preparation.

Undoubtedly the reason why many people do not dip their sheep is the lack of suitable equipment. Elaborate equipment, however, is not necessary. A trough large enough to immerse sheep, a draining platform, and a corral are all that is required. Galvanized iron dipping tanks can be purchased or a suitable tank can be built by a tinsmith. Lumber tanks carefully bolted together have been found satisfactory and concrete tanks work very well. Where a community contains several small flocks, the community dipping vat has a number of advantages. One community dipping vat was built for an outlay in actual cash of \$6.00, not including labor. This, of course, does not include capitals and chutes.

The Livestock Division of the Dominion Department of Agriculture has designs of a dipping tank for a community or individual dipping vat. The design is simple, and the vat can be constructed by any farmer. These plans may be obtained

#### FOR YOUR ATTENTION!

Farmers requiring seed oats and seed barley should take steps to obtain them as soon as possible. Stocks of seed in Western Canada are very limited. Any elevator agent will take orders and can quote prices on registered, certified or commercial seed.

#### FANSETT FARM SOLD

The Fansett farm, five miles east of town was sold this week to a group of Memonite buyers part of whom are at Rally and part of them from the States. Bob is retaining a tract of irrigated land, but the rest of the large tract of farm land, among the finest in the district has been sold to these buyers.

Seasonal Farm Plan for  
Insect Control

There must, we fear, always be a large measure of guess work in farm planning until we can confidently forecast weather and markets. However, we have encountered a scheme for planning tillage operations so as to discourage insect pests, and we are reprinting it in our "Seedtime and Harvest" leaflet. Copies may be obtained from Line Elevator Company grain buyers, or from the Agricultural Department, The North-West Line Elevators Association, Winnipeg.

Entomologists in Western Canada have not confined themselves to laboratory study, but have worked closely with the farmers themselves in finding methods for controlling field crop insects.

The leaflet to which we refer is a copy of a mimeographed publication of the Division of Entomology, Dominion Department of Agriculture, prepared and issued by the Saskatoon Laboratory. It is concerned with the control of grasshoppers, wireworms, cutworms and wheat stem sawfly. Emphasis is placed on the methods of tillage and timing the various operations so as to discourage the multiplication and spread of insects.

Enormous losses are suffered as a result of insect attack. In some cases, losses are attributed to other causes. For example, if stands of grain are thinned by cutworms or wireworms, weed growth is encouraged. Insect control is an important factor in fighting weeds.

Ask the local line elevator grain buyer for the leaflet, and for more detailed information, apply to the Dominion Entomological Laboratory, Lethbridge, Saskatoon or Brandon.

### NEWS NOTES

#### JOIN THE AIR CADETS NOW

Manager T. Geo. Wood of the Sugar Factories, was a Calgary business visitor this week.

Mr. and Mrs. W. W. Roberts of Cardston were visitors at the E. E. Jensen home last week. Mrs. Roberts is Ernie's mother.

Hyrum Fromm of the U. S. Air Force arrived home Wednesday evening and will have ten days here with his family and relatives. We haven't had a chance to talk with him yet to know what his official title is but he has several badges, we notice.

Sergt. A. L. "Jim" Green, who graduated from Macleod No. 7 S.F.T.S. was a visitor at home over the week-end, before being posted to another station. Jim looks fine and expressed himself as being glad to have another other visit at home, the first in sixteen months.

The Stake Missionary group had charge of the meeting in the 2nd Ward Sunday evening 1st and speakers were Misses Afton Christensen and Mesdames Zina Anderson, Fannie McBride and Ruth Fromm and Elder Ike Holt. Musical numbers were a vocal duet by the McBride sisters, piano duet by Misses Margaret Wing and Kathryn Allen, vocal solos by Mrs. E. E. Reithman and Miss Joanne Zabriskie and an anthem by the Choir. Jimmy Green, home on furlough also spoke briefly.

The story of the creation of the world is told in Genesis in 400 words.

The world's greatest moral code, the Ten Commandments, contains only 400 words.

Lincoln's immortal "Gettysburg Address" is but 266 words in length.

The Declaration of Independence required only 1,321 words to set up a new conception of freedom.

The Office of Price Administration uses 2,500 words to announce a reduction in the price of cabbage seeds.—St. Louis Globe Democrat.

## Tough Fighting Leads to Allied Triumph at Salerno

When the Fifth Army beached near Salerno, it held on its precarious foothold in the face of severe opposition. In some of the toughest fighting of the Italian campaign it forced the Germans back, took the Town of Salerno and went on to fight through rough hill country to-

wards the Plain of Naples. Naples has fallen to the Allies and the Fifth is still pushing northwards, Romewards.

Picture shows: On one of the beaches near Salerno, as Allied landing operations go forward.

### CANADIAN AID TO RUSSIA FUND

Remembering the wonderful response of the people of Raymond and District to the last year's appeal of the Canadian Aid to Russia Fund, we feel sure that you will be interested in knowing that the National Committee of the Fund has continued to function with its licence being extended by the Minister of National War Services. Contributions in cash and clothing have continued to flow in from all parts of the Dominion and regular shipments of food and clothing to Russia have been maintained.

The last statement released by the Committee shows that the total cash received up to October 30th, 1943, amounts to \$3,152,634.45. Value of donated clothing: \$1,004,177.17.

EVELYN GOULD

NEWS NOTES

TRAIN TODAY AND FLY TOMORROW

J. H. Walker, M.L.A., was in the city this week holding meetings and explaining the Independent platform to interested audiences. This week he is in the Peace River country carrying on organization work and holding meetings.

The Jacks won over the Cheshams Wednesday night 26-21 in a game that was really interesting. In the first quarter the Jacks took a good lead, which saved the bacon in the last part of the game when the cement floor really took its toll of the local boys.

CANNING SUGAR AGAIN LIMITED

Ten Pounds Per Person for 1944 By Use of "F" Coupons. Another Headache

Ottawa has announced that the sugar for 1944 canning will again be on the basis of 10 lbs. per person. It will be obtained through use of the "F" coupons in present ration books and each coupon will be good for the purchase of one pound of sugar. The first of the canning sugar coupons comes valid on July 1.

The government suggests brightly that people may hang on to their preserves coupons saving them for the purchase of sugar. If the turn of all their preserves coupons for 1944 to buy sugar for canning they will finally realize a total of 23 pounds per person for canning. Or if they want to use the "F" coupons for purchase of preserves, they may do so by special application to the local ration board. Then one "F" coupon will have the value of one preserves coupon.

"Where You Get More of the Best for the Money"

IT'S A GOOD IDEA

It's a good idea to form a regular saving habit for future security—it's a better idea to place your savings with your own TREASURY BRANCHES. Your local branch manager will gladly show you the THREE savings plans available at all Treasury Branches. There is a plan best suited for your own needs—whether you deposit savings regularly, or whether you wish to leave funds on deposit for a specified period of time. It pays financially and in satisfaction to deposit savings with your own TREASURY BRANCHES. See your local manager soon!
